To:Eau Claire County Board of SupervisorsDate:May 11, 2017About:March 31, 2017 – 1st Quarter Financial Report – 25.00% of Year

Attached are some highlights related to the March 2017 financial report.

#### **Revenues**

Revenues tend to be more cyclical in nature than expenses. Many of Eau Claire County's grants and aids, the largest revenue source after property tax levy, are paid on a reimbursement basis. The County incurs the expenses, submits the paperwork to primarily the State, and the reimbursement comes later.

Overall, 18.92% of annual revenues have been recognized through March. Note that sales tax (discussed in more detail later) lags by two months. It is also important to note that revenues are presented here on a cash basis and reversing entries for adjusting the County's records to modified accrual in 2016 will distort 2017 balances to the extent that offsetting accruals have not been posted. The line items most affected by this are Sales Tax and Grants and Aids.

Property taxes are due on January 31 and are collected by local treasurers through that date. After January 31, all collections become the responsibility of the County. By August 15, Eau Claire County must make full payment to all the other taxing jurisdictions without regard to what has been collected. Outstanding taxes as of March 31, 2017 follow. This means uncollected taxes due to Eau Claire County equal \$37,419,016, which is \$1,898,466 more than a year ago at this time.

Sales tax receipts lag the month of sale by two months. For instance, for sales made at stores during January, vendors report and remit the sales tax to the State at the end of February, the State processes the information throughout March, and the County receives its payment at the end of March or possibly even the first part of April. Therefore, the County's financial reports as of the end of March only contain sales made through February. Further, sales tax is not at all received equally each month through the year. Summer receipts and the December holidays are higher. Eau Claire County increased its sales tax budget for 2017 to \$9,600,000. Adjusting the budget for historical seasonal receipts, 2017 sales tax collections are ahead of budget at this point.

#### Expenditures

Expenditures for wages, salaries and benefits tend to be spread relatively evenly throughout the year, and it is generally reasonable to assume 1/12<sup>th</sup> should be recorded each month. Supplies and services in most areas also tend to be spent fairly evenly throughout the year. Debt service is paid in March (interest only) and September (principal and interest). Capital outlay is rarely spent evenly, and there are huge peaks and valleys by month or quarter.

Overall, 18.08% of annual expenditures have been recognized through March.

#### Current Eau Claire County 2017 Financial Position

The Finance Committee and Eau Claire County managers spend a great deal of effort monitoring the Eau Claire County budget, making plans when areas of concern develop, and taking action (often with Committee and County Board action) when trouble is certain.

The impact of the economy is also watched through a number of key areas, including property tax collections, key planning and zoning permits, register of deeds collections, and interest earned on invested funds.

Economic Indicator Line Items	2014 Total for Year	2015 Total for Year	2016 Total for Year	2017 Annual Budget	Actual through March 2017	2017 % of Budget
Interest Collected on Delinquent Taxes	523,704	371,710	395,823			
Zoning and Permits	279,107	329,786	388,431	300,000	124,815	42%
Real Estate Transfer Tax	256,270	270,415	281,283	275,000	75,624	27%
Register of Deeds Filing Fees	341,395	295,570	338,228	305,000	277,856	91%
Interest Earned on Investments	66,759	50,020	117,419	100,000	56,522	57%

Cash balances remain strong and steady, and the Treasurer is maintaining ample reserves for the County.

#### In Conclusion

Particularly with the work drafting the County's 2018 budget, now is the time to remain mindful of current and future indications that funding is changing. Department managers provide monthly updates of budget position and statistics that can be leading indicators of changes to the status quo. Program review should *never* be complete to make sure Eau Claire County is providing those services most vital to those most in need. Changes to business as usual are often extremely difficult and take considerable time to implement.

I encourage you to contact me with questions as they come to mind.
