**NOTICE OF PUBLIC HEARING  
IN THE MATTER OF STATE AND FEDERAL AID  
FOR IMPROVEMENTS AT**

**Chippewa Valley Regional Airport**  
3800 Starr Avenue  
Eau Claire, WI 54703

The Chippewa Valley Regional Airport Commission is considering petitioning the State of Wisconsin, Department of Transportation, for state and federal aid to undertake the following development at the Chippewa Valley Regional Airport:

Construct hangars, replace or install new taxiway lighting, replace or install new runway lighting, rehabilitate runway, taxiway and ramp pavement, and any necessary related work.

Notice is hereby given that the Chippewa Valley Regional Airport Commission will hold a public hearing at 7:00 pm on November 17, 2020 via a Webex meeting by dialing 1-415-655-0001 access code 145 325 2816 or by emailing [admin@chippewavalleyairport.com](mailto:admin@chippewavalleyairport.com) for the weblink.

All interested persons are invited to present their views on the need for the proposed airport development. For those wishing to comment, you must email [admin@chippewavalleyairport.com](mailto:admin@chippewavalleyairport.com) or call 715-839-6241 at least 30 minutes prior to the start of the public hearing. You will be called on during the public hearing to make your comments.

**Chippewa Valley Regional Airport Project Description**  
In Support of Airport Aid Petition  
October 16, 2020

**Construct Hangars**

There are approximately \$2.5 million remaining dollars in a CARES Act grant awarded to the Chippewa Valley Regional Airport in 2020. It is our intent to work with the State and the FAA to use those remaining dollars for development of new hangars at the Airport. We have several hangars planned for future development and have submitted all of those planned hangars as part of this petition to allow maximum flexibility to use the CARES funding in the area of the greatest demand. All of the hangars being considered are shown on the current FAA approved ALP and additional need for hangars is referenced in the current Airport Master Plan.

**Replace or Install New Taxiway Lighting**

Future airport capital improvement plans include replacement of existing taxiway lighting due to age and improved available equipment. This is intended to include any new lighting installations due to new taxiway development or reconfiguring of existing taxiways. This would also include existing and new taxiway signage.

**Replace or Install New Runway Lighting**

Future airport capital improvement plans include replacement of existing runway lighting due to age and improved available equipment. This is intended to include any new lighting installations due to new runway development or reconfiguring of existing runways. This would also include existing and new runway signage and NAVAIDS.

**Rehabilitate Runway, Taxiway and Ramp Pavement**

The rehabilitation of the runway, taxiway and ramp pavements should consider all State and FAA approved pavement rehabilitation options to extend the life of the pavement, including but not limited to partial and full panel repairs, joint sealing, crack sealing and pavement markings.

These documents shall not be used for any purpose or project for which it is not intended.
