29 8.30.010 Purpose. The purpose of this Chapter is to promote the health, safety, and  
30 general welfare of domestic animals by requiring that animals be tended to in a manner that they  
31 are properly fed, provided adequate water and shelter, and properly cared for, and to provide  
32 appropriate forfeiture for owners who neglect, abuse, or refuse to provide adequate care and  
33 supervision for animals in their custody. This Chapter adopts the provisions of Wis. Stat.  
34 §§951.01- 951.15 by reference.  
35

36 8.30.020 Jurisdiction and Enforcement. The ordinance codified in this chapter shall be

40 Enforcement. Consistent with Wis. Stat. §173.07(4m) provisions of this chapter shall be  
41 enforced by a law enforcement officer lawfully employed by any law enforcement agency

43

44 8.30.030 Definitions.

45 A. "Caretaker" means a person or persons responsible for the care and safety of the  
46 animal and may include the owner of the animal or an individual who is not the owner and  
47 resides within the same residence as the animal and who has assumed responsibility for the care  
48 of the animal; or an individual, a kennel or business who is caring for the animal in the absence  
49 of the owner and who violates the provisions of this ordinance.

1 B. "Animal" for purposes of this chapter "animal" is generally considered to be a  
2 warm-blooded animal, including a domesticated dog or cat, and may include other domesticated  
3 animals, but does not include livestock or farm animals that are raised and used primarily for  
4 food, fiber or other recognized farm or livestock purposes, or wild animals that are not otherwise  
5 domesticated.

6 C. "Abuse" shall mean to intentionally beat, strike, torment, frighten, purposefully  
7 injure, or physically harm or mutilate an animal in a manner that causes the animal to suffer  
8 severe pain or injury, and includes torturing an animal which includes any action that inflicts  
9 extreme physical pain or injury on an animal through acts of abuse, by purposeful electrocution,  
10 freezing, heating, poisoning, or shooting at animal; in addition abuse can be caused by  
11 purposefully exposing an animal to dangerous situations including dangerous chemicals, other  
12 dangerous or infected animals, instigating animal fights. Knowingly or unknowingly leaving an  
13 animal exposed to extreme weather conditions such that it may cause injury or death for that  
14 species and breed of animal.

15 D. "Neglect" shall include the failure of the custodian or owner of the animal to  
16 provide proper care for the animal by failing to provide nutritious food, shelter, clean water,  
17 grooming and care for the animal, and shall include, but not be limited to: leaving an animal  
18 exposed to the elements either in an enclosure or tethered for extended periods of time, failing to  
19 provide adequate food and clean water for the animal, failure to attend to sores, injuries, or  
20 illness of the animal, failure to properly groom the animal so as to allow matting or burrs in the  
21 animal's fur, or allowing nails to grow to where they are overturned. Neglect also includes the  
22 failure to provide adequate care to protect the animal from disease and illness by failing to have  
23 the animal properly vaccinated or failing to seek care from a veterinarian for an animal that is  
24 sick or injured.

25 E. "Tethering" is the act of attaching an animal to a fixed object or building by  
26 means of a rope, chain, cable, leash, or other means. Tethering is not permitted as a means of  
27 permanent confinement and shall not be done when the animal is unattended by its caretaker or  
28 in a manner that leads to abuse, neglect, or cruelty to the animal.

29 F. "Shelter" is a man-made structure that provides an animal protection from the  
30 elements including the sun, wind, cold, rain or snow.

31 G. "Collar" is a piece of fabric, leather, or other material placed around an animal's  
32 neck for the purpose of providing a place to attach a tether, licenses, or other identifying  
33 information about the animal.

34  
35 8.30.040 Violations. In addition to the violations listed in Wis. Stats. §§951.01-951.15, it  
36 shall be a violation of this ordinance to commit an act that is contrary to the following:

37 A. Tethers and leashes permitted. Tethers and leashes are permitted where animals  
38 are required to be on a leash or tethered in areas that include but not limited to public places or  
39 businesses, parks, campgrounds, etc., or places where animals are required to be on a tether or  
40 leash and in the direct control of its owner and the tether or leash is necessary for compliance  
41 with local ordinances, rules, or regulations and where a tether is necessary to prevent the animal  
42 from injuring itself, other persons, or animals. Tethers attached to a fixed object shall be at least  
43 10 feet in length and shall allow the animal to reach food, continuous water in a secured  
44 container, and shelter. Tethers shall be made of material and be of a weight that it will not injure,  
45 or unnecessarily burden the animal because of the size or weight of the tether in comparison to  
46 the size and weight of the animal; and shall be attached to the animal in a manner that allows the  
47 owner sufficient control of the animal but does not harm the animal. Pinch, prong, or choke  
48 collars are prohibited for tethering to a fixed object. No animal shall be tethered outside during  
49 extreme weather conditions.

1 B. Shelter. Free standing shelters must meet the following minimum standards:  
2 Shelters must be windproof with no gaps that allow light or wind in and that are waterproof.  
3 They must be built in such a manner to create adequate drainage around the shelter to prevent  
4 standing water or ice to accumulate around the perimeter of the shelter. The floor of the shelter  
5 should be at least 2 inches off the ground with a protected, unimpeded entrance that allows  
6 unimpeded access to and from the shelter and is positioned in such a way to limit the wind,  
7 snow, or rain from blowing into the shelter. The shelter must contain sufficient space to allow the  
8 animal to sit, stand, turn around and lie down, but be of a size to allow the animal to retain or  
9 dissipate body heat that is appropriate for the animals age, breed, health, and physical condition.  
10 Shelters must have a solid non-metal floor. Shelter must be kept clean dry and have a layer of  
11 straw or other nonabsorbent material. Interior surfaces that cannot be cleaned and sanitized must  
12 be replaced when worn or soiled. The shelter itself cannot be used as the animal's only  
13 protection from the sun. If the animal is confined in a fenced or kennel enclosure, the enclosure  
14 must be a minimum of 100 square feet per animal if the animal is 20 pounds or less; and a  
15 minimum of 200 square feet if the animal is more than 20 pounds.

16 C. Collars. Collars shall be made of leather or nylon or other similar material, made  
17 from a non-metal, non-self-tightening material with a buckle or snap. Collars must fit with no  
18 signs of choking or injury to the animal.

19 D. Transportation. No person may transport an animal on public roads in the bed of a  
20 truck without the animal being properly restrained or placed in a crate. No person may leave an  
21 animal unattended in a vehicle in conditions that endanger the health or safety of an animal due  
22 to excessive heat or cold, lack of ventilation, lack of water, or other conditions that could cause  
23 suffering, injury, or death to the animal.

24 E. To commit acts of abuse or neglect on an animal as defined by this chapter.  
25

26 8.30.050 Penalty. Any person who violates or refuses to comply with the provisions of  
27 this chapter shall be subject to forfeiture of not less than \$100 and not more than \$500. Each day  
28 a violation exists shall be considered a new and separate offense.
