CVRA Strategic Plan - June 2023 Operational Review

Airport Fire Station

Construction of a new firestation was completed in May 2023.

Jim Armstrong Maintenance Facility

- The facility was built in three separate projects and named after long time airport maintenance supervisor, Jim Armstrong, in 2011. The latest addition to the SRE building in 2021 was to house larger multi-function snow removal equipment.
- The roof on the older section of the building was spray coated in 2013 to enhance the life and provide additional thermal protection.
- Lighting inside the facility was recently upgraded to LED, replacing the 8' T12 Lights previously installed in the building.
- A pipe froze in the back restroom area in 2013-14. If that area is to be used again the flooring needs to be addressed.
- There is currently no emergency power available for this building. If there is a power outage, we
 are unable to access the equipment inside the building. A new generator for the building should
 be considered for a future budget.

Passenger Facility Charge

- The airport charges a \$4.50 passenger facility charge for every airline passenger departing the airport. The airlines collect for the airport and keep \$.11 per passenger for administration.
- Due to the low number of enplaned passengers, the airport collects on projects previously completed versus collecting for future projects.
- PFC Application 3 was approved by the FAA for collection starting May 1, 2015 through June 1, 2024 in the amount of \$771,310. There is currently \$81,055 remaining to collect. Mead and Hunt is under contract for a new PFC application.
- An annual audit of PFC collections is required by the FAA and conducted in conjunction with the annual Eau Claire County audit.

<u>Terminal Tile Replacement Budget</u>

Mead and Hunt received some budget numbers from an installer last week and incorporated them into their demolition estimate. Here is where we are at:

Base Price

Replace Exterior: \$173,149

Options

#1- Replace Interior: \$84,756

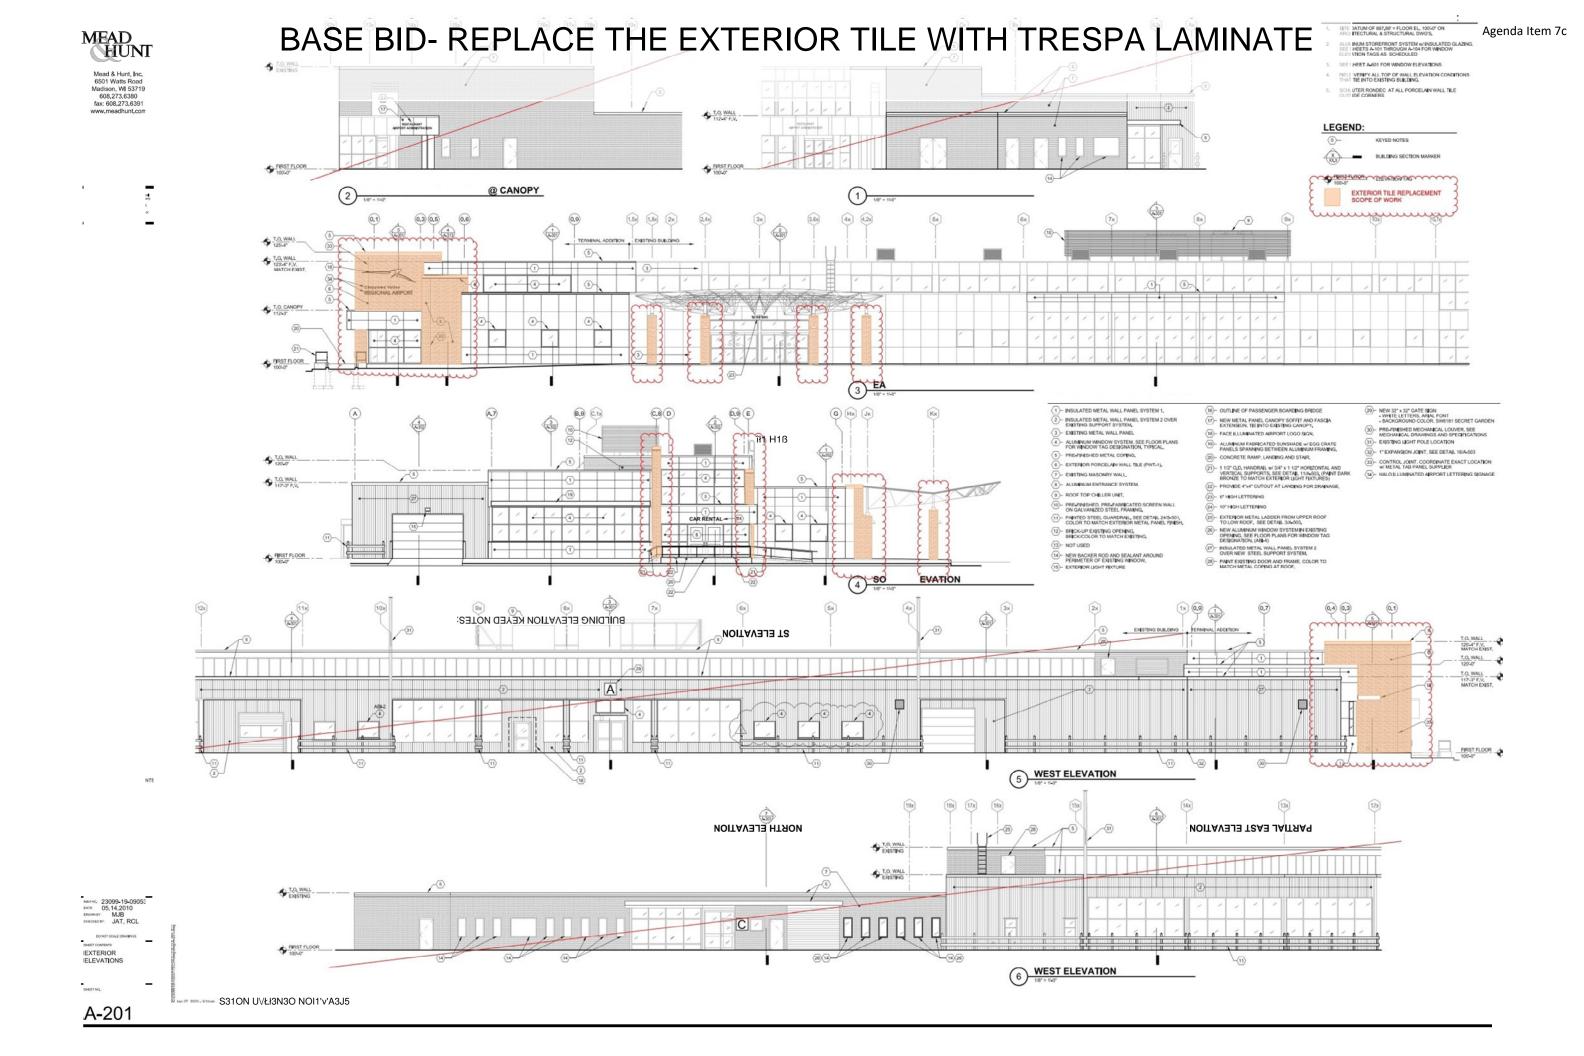

#2- Wrap Main Entry Columns in Laminate: \$24,200

The material lead time- 30 weeks.

Two comments on this:

We do not have to use Trespa which is the product that was presented. There are other materials out there, that, under a competitive environment, could have less lead time and less cost.

The project can be installed year-round, it is not weather dependent. So if the product shows up in February, it can be installed at that time.
