## Paying for Foot Care

Self-pay is generally the only option for foot care. Insurance is not billed for foot care unless:

**Medicare-** Must be actively treated by a doctor for a medical condition affecting circulation of the legs or feet. Medicare Part B covers the services of a podiatrist (toenails clipped while being seen for a medical condition). Medicare pays 80% of the approved amounts.

**Medicaid-** Foot care must be a medically necessary service for the diagnosis and treatment of the feet and ankles. There is a small co-payment for foot care. If being treated for a medical condition of the feet and ankles, a podiatrist may also clip toenails. If you have a Medicaid HMO check with the HMO to see if toenail clipping is a covered service, and if so, which provider is covered by that HMO. Routine nail clipping is not covered under Medicaid.
