Brain Health Check-Up

A Closer look at Memory Changes

A brain health check-up (memory screen) is a wellness tool that helps identify possible changes in memory and cognition. We screen for other things, why not your memory?

It creates a baseline of where a person is at so that future changes can be monitored.

It's Free, confidential, and takes only 15 minutes!

WHEN: Tuesday, September 24, 2024

TIME: 8:30 am - Noon (20 minute appointments)

LOCATION: Augusta Senior and Community Center
616 W. Washington St, Augusta

To schedule an appointment, call the Aging & Disability Resource Center at
715-839-4735, 888-338-4636 or adrc@eauclairecounty.gov

Get immediate results

Early detection is important
Just as blood pressure, cancer, diabetes, or stroke screening contribute to prevention and better treatments, so do memory screens.

Treatment may be possible
Some types of dementia are reversible, like those from nutritional & vitamin deficiencies, depression, thyroid issues, and more.

Knowledge means more control
Dementias that are not reversible may be treated with medications that could help with symptoms and preserve quality of life for a longer period of time.
